Information note

be SMART ONLINE!

? Do you actually know all your Facebook friends?
Be careful who you add and accept as 'friends' on Facebook. Make sure that your friends on Facebook are really who they say they are.

? Do you make use of the privacy settings on Facebook?
You should check your privacy settings regularly as these are often changed or updated by Facebook. Ensure that your profile is always up to date with the latest settings. For help with privacy settings you can visit www.besmartonline.org.mt or call Helpline 179.

? Are you in control of what you post on Facebook?
Remember that anything posted online can be copied, edited and shared. So think before you post!

? Do you know how the new search facility on Facebook works?
The new graph search allows people who are **not** your friends on Facebook to search for your photos and posts. This will show all photos you are tagged in and which are public, as well as, posts which are also public.
The control is with the person who posted all this information. Your privacy settings determine what your friends or other people will find out about you when using this search facility. Keep your timeline private.
For more information send an email to 179.appogg@gov.mt or call Helpline 179.

? What should you do if someone's actions and posts on Facebook bother you?
Do not communicate with the person and press the BLOCK button.
You can speak to your parents, a teacher, a counsellor or call Helpline 179 for support.

@ You should never give out personal information – you never know who is viewing your profile!

@ If you come across inappropriate material, which is insulting or makes you or your friends feel uncomfortable – report it! You can call the Helpline 179, send an email to 179.appogg@gov.mt or visit www.besmartonline.org.mt.
